With more than 80 years of experience Mehler Technologies is your reliable partner for tensile architecture applications. Over the decades we built up experience in the coated technical textile industry as well as a huge knowledge base.

Our **VALMEX®** façade product range is meant for building or renewing façades. It offers numerous design options. From hard and sharp edges to smooth and sculptural curvatures.

VALMEX® façade meshes are made for long lasting cladding applications. The resistance, durability and permeability have been the key characteristics through-out

the development process. The hi-tech meshes are composed of carefully selected raw materials. An extremely tight high-tenacity PES base fabric with vinyl coating, protected by the unique and weldable MEHATOP® F1 PVDF top finish. This results in technical perfection: the first choice for any long lasting cladding application.

Besides their different appearance the four façade meshes are mainly characterized by two values: tensile strength and degree of openness. Upon request we offer special top finishes, like MEHATOP® N and our special print lacquer. Furthermore, we have a new range of colors available. If your color is still not among these suggestions, please don't hesitate to get in touch with us!

Bei den angegebenen technischen Daten handelt es sich um Durchschnittswerte. Geringfügige Farbschwankungen vorbehalten. RAL-Farben in Anlehnung. Stets Gültigkeit der FR-Zulassung prüfen. Alle Mehler Technologies-Produkte entsprechen der EU-Verordnung REACH - Registration, Evaluation, Authorisation of Chemicals. Die Herstellung unserer technischen Textilien ist nach DIN 9001 zertifiziert. Weitere Varianten auf Anfrage, Programmänderungen vorbehalten. VALMEX® ist recycelbar.

The indicated technical specifications are average values. Colours are subject to slight variations. References made to RAL are indications only. Always check the validity of fire certificate. All Mehler Technologies products are in accordance with the European REACH directive - Registration, Evaluation and Authorisation of Chemicals. Manufactured in Germany under the internationally recognized standard of quality DIN 9001. Other versions upon request, program changes reserved. VALMEX® is recyclable.

Les données techniques indiquées sont des valeurs moyennes. Sous réserve de légers changements de coloris. Coloris approchant RAL. Veuillez toujours vérifier la validité des certificats antifeu. Tous les produits Mehler Technologies sont conformes à la réglementation Européenne REACH - enregistrement, évaluation et autorisation des substances chimiques. Toutes nos fabrications sont européennes selon les standards de qualité internationaux DIN 9001. Autres versions sur demande, sous réserve de modifications de la gamme. VALMEX® est recyclable.

Características técnicas indicadas en valores medios. Sujetas a pequeñas alteraciones del color. Referencias al RAL son solo indicativas. Siempre verificar la validez del certificado de ignición. Todos los productos de Mehler Technologies cumplen la normativa REACH - Registration, Evaluation and Authorisation of Chemicals (Registro, Evaluación y Autorización de Sustancias Químicas). La fabricación de nuestros productos esta certificada según la DIN 9001. Otras variantes bajo consulta. Posibles modificaciones sin previo aviso. VALMEX® es reciclable.

I dati tecnici sono la risultanza di valori medi di produzione. Sono possibili leggere variazioni di colore. I colori sono prodotti in rispondenza alla scala RAL. Verificare sempre la validità delle certificazioni. Tutti i prodotti Mehler Technologies rispondono alla normativa REACH - Registration, Evaluation and Authorisation of Chemicals. La produzione dei nostri tessuti è certificata secondo DIN 9001. Su richiesta, si possono produrre altre versioni. Modifiche della gamma sempre possibili. VALMEX® è riciclabile.

Все указанные технические данные базируются на основе выявленных средних показателей. Цвета приближены к RAL. Незначительные цветовые отклонения возможны. Все продукты Mehler Technologies соответствуют ЕС директиве «REACH» - Registration, Evaluation and Authorisation of Chemicals. Проверьте срок действия сертификата пожарной безопасности. Произведено и сертифицировано в Германии согласно нормативам стандартов качества DIN 9001. Другие варианты по запросу. Возможны изменения в программе. VALMEX® рециркулируется.

Eco-care is our guideline of handling energy and resources, the use of environmentally sustainable components, and it describes our activities in the area of recycling coated fabrics.

Low & Bonar strictly selects all product components in conjunction with the most stringent EU directives and is fulfilling them as a pioneer in this industry.

Low & Bonar honours its commitment to environmental responsibility and sustainability by participating in VinylPlus: The voluntary commitment of the PVC industry.

We are in an ongoing process to enhance our sustainability performance. One crucial factor is that all our fabrics are 100% recyclable.
